EXPERIENCE

[Evergrace](#), Miami – Front End Engineer

NOVEMBER 2017 – PRESENT

Single handedly created and built entire company website as well as online shopping tools and features.

[Cutler Bay Sports Bar](#), Miami –

Front End Engineer/Media Manager

JUNE 2016 – OCTOBER 2017

Created and built entire company website alongside a user-friendly feature to place online TO-GO orders. Also, managed the company social media accounts and designed all special event web flyers and advertisements.

PROJECTS

[CoffeeBreak](#), Web Application

Building entire application from scratch. Users can choose from a few topics and link email and social media. Once the user is set up and linked the web app will create an “all-in-one” experience so you have most of the things you enjoy doing while taking a coffee break. Email and social media feed will show up in part of the page and depending on topics chosen, articles, stories, recipes, videos, gifs of those topics will be shown so user can enjoy the routine they usually go through while drinking their morning coffee all in one place.
